Epson 10600 - Pigment
Mimaki JV-Series - Dye + Pigment
Roland HiFiJet and CAMMJet Series - Dye + Pigment
Mutoh RJ-Series - Dye + Pigment
Seiko IP-Serie - oilbased

Description:

TAC2 is a heavy, matt finished, coated cotton cloth for pigmented and dye-based ink.

Thermal and piezo-electric printers are supported in equal measure.

By using pigmented ink the prints will be water repellent.

If you print with dye-based-inks, we recommend lamination to protect the surface. Otherwise the print might oxidate within app. two weeks.

The application of TAC2 focusses on indoor-appliances.

EMBLEM TAC2 can be sewn up, but should not be fold.

To avoid fingerprints it is advisable to wear cotton gloves.

Typical Applications:

Decoration:	Theatre, Cinema, Museum...
Graphic Arts:	Canvas
